

## FAIRFIELD

**Baseball Day — People at the Hill**  
Climb—Electric Poles—Club Reception—Personals.

Yesterday was a great day for baseball, a large number of games having been played. The young fairies were to have played the East End All Stars, but as the latter failed to show up, they declared themselves winners 9 to 0. A large crowd witnessed the game on McGarry's field between the team from the Aluminon and the team from the Rubber factory. The Rubber won 10 to 6. It is said that Mr. Harrall told his boys to win and was so pleased with the victory that he has promised to give the team a new uniform. On Friday the Harrows went to Pine Ridge and played a game, and it is said they were defeated 3 to 7. The Star Juniors and the fairies were playing at a late hour yesterday on the grounds near St. Paul's church. A large number of ladies were in attendance to witness the game.

The hill climb of the automobiles attracted considerable attention and quite a number from town drove over to witness the sport. Wallace M. Bulkley had no less than 10 surries on the field. A few of those who attended were John Boyce, one of the referees, Mrs. John Stevens and family, Edward Thomas with friends, Robert Dalling and a party of ladies, John Donaldson, Edward W. Winton, Hotchkiss, Howard and Willie Taylor, John Slattery, David Huntington, Anthony Parshley, William G. Green, Jr., Edna W. Winton, Wells Curtis, and Louis Curtis and family of Southport.

One day last week the Boston Realty Company sold several lots from the Wakenham place. A good many men were at Grasmere yesterday choosing lots.

Mr. and Mrs. F. G. Hotchkiss passed Decoration Day in Hartford.

There was a general display of flags in town yesterday, and the passing automobiles made a constant procession.

A crowd of people flocked to the Boyle Pharmacy after ice cream and cooling drinks.

Mrs. Florence Thompson of New York is visiting Mrs. Thomas Phalen.

Mr. Van Ness has opened his grocery store at the beach for the season.

The Messrs. Malcom of New York have arrived at the beach and their hotel, which was a great success last summer.

Mrs. W. F. Northrop is in Massachusetts for a month.

The Friday Afternoon club met with Mrs. Oliver C. Jennings.

The father and mother of Attorney C. L. King have been visiting in town.

The funeral of Henry Randolph was conducted by Rev. Dr. Childs and Rev. Mr. Morton. The pall bearers were Honore Gorman, Thomas Sherwood, William Piper and James Johnson.

Mrs. George N. Pike of Walton is visiting in Southport.

Mrs. Samuel Jennings and son have gone to Georgetown for a month.

The monthly meeting of the Greenfield Country Club will be held next Thursday. Last Thursday was too stormy for the club to come together.

Mrs. Emily Jennings is home from a visit to New York.

The poles for the electric cable which is to supply lights for the town are being placed on the cross streets as well as the main thoroughfare, and the line is being built down the beach road. It will not be at all surprising to see electric lights glowing on the beach.

The Onedias gave an entertainment on Friday evening to the young ladies of the F. L. C. Club at their club rooms over the Betts grocery store. A jolly time was had followed by a luncheon which was much enjoyed. A few of those who attended were Roger Smith and Iva King, Billings, F. Deane, Cornelia Fenfield, Andrew Huntington and Louise Forsythe, David H. and Miss Amy Jennings, Sadie Devo, Helen Forsythe, Elsie Jennings, Mabel Deane, Louise Everett, Mary Grace West, Dorothy Smith, Marion Donaldson, Ernest and Winfield Thomas, John Donaldson, Willie and Howard Taylor and Julian Perry.

Edward Stowell was taken into the Onedias Club on Saturday evening.

Miss Margaret of Los Angeles returned to Greenfield Hill on Saturday.

The Dwight school now has a fire escape.

## VACCINATION AS CAUSE OF CANCER

Dr. W. B. Clarke, a Famous Expert, Has Never Seen a Case of Cancer in an Unvaccinated Person.

(New York Press.)

As to Cancer.

Dr. W. B. Clarke will not yield his opinions on cancer. No physician has yet told us the cause of cancer, and none can point out its cure; therefore Dr. Clarke's theories may be as good as anybody's. The case of Dr. Bull interests the world, and is a puzzle to all scientists. The fear of cancer is almost as depressing as that of consumption. It haunts the mind, keeping millions in a state of frightful suspense.

The Victims.

Says Dr. Clarke: "The malignancy and unvarying fatality of cancer and the Indian-like or long-continued torture of its victims characteristic of this terrible disease justify the popular notion of its being a punishment."

"Cancer steadily pursues its relentless march, slaying its thousands and tens of thousands, slaying the Grants and Gladstones of the world, the most eminent physicians and surgeons with as little leniency as it displays toward their humblest and most helpless followers. In the State of New York 6,400 died of cancer in 1907. In other words to bring the subject intimately close, in an ordinary man's lifetime about 100,000 die of cancer in this State."

THE PART VACCINATION PLAYS

"As cancer was practically unknown until cow-pox vaccination began to be introduced, it is certainly not time to study out the possible connection between the two. Cancer, I believe, is a disease of cell life, a disturbance of its equilibrium, a disturbance of its growth of cells and the consequent building up of a tumor. I have had to do with at least 200 cases of cancer and here declare that it NEVER SAW A CASE OF CANCER IN AN UNVACCINATED PERSON. This of itself may not mean anything, but I ask all physicians to pursue their inquiries along this line and see what will result."

HOW VACCINATION WORKS

"The way vaccination causes cancer is like this: It takes twenty years to make a man and but four to make a cow, the former being a slow cell growth and the latter rapid. To put the rapid-growing cells, or protoplasm, of a diseased animal (in a condition of virulent infectious activity) in to the slow-growing cells of man—as is done in vaccination and the various forms of blood poisoning now in vogue in civilized countries (often enforced by law, health departments or boards of education)—is to disturb the equilibrium of cell life and create the conditions for cancer."

organization which, when the season for cancer comes late in life, results in cancer, if not tuberculosis earlier.

A LOGICAL CONCLUSION

"It is a logical conclusion," says Dr. Clarke, "that both logical and in accord with the most profound discoveries of modern biology and pathology, from the cellular pathology of the great Virchow to the recent discovery of Dr. Roswell Park in the State-paid work at the University of Buffalo, that the cancer organisms can be detected, the cancer and cancer closely in appearance to the bodies found in the blood after vaccination—confirming the previous claims of Funk and Gorgini abroad."

Effect of the Imagination.

Mental influence would be more powerful if it were possible for men to do more thinking. But even with high living and low thinking the average man dies of the disease he most dreads.

POINTS OF INTEREST.

Something Special.

One piece, non-breakable, protected pin-point handy pins in Roman and Bright gold plate are offered at Parker's jewelry store, 8 Arcade, at 10 cents a set while they last. Only a few gross are in stock. Look at them. They are displayed in the window. All so bargains in black beetle pins, black barrettes, beads, belt and hat pins in Dutch colors.

The Question.

Wedding gift is a very perplexing one. G. W. Fairchild & Sons are prepared to relieve the mind of all anxiety with a store full of gift suggestions. Just now they call special attention to their cut glass department, where are displayed some of the richest examples of this art ever shown in Bridgeport, also pieces moderately priced but high in quality. The patterns are exclusive and the prices are arranged to suit all purses. While in the store do not forget the Special Sale of James Edwards Silverware.
